Information requested about

Antibody Analytics

- △ Primary Antibodies
- △ Western Blot △ IHC △ FACS
- △ Posttranslational Modification
- △ **Secondary antibodies & conjugates**
- △ ELISA systems for human and animal derived samples
- △ Micro Assays △ Proteomics

Raw Material for R&D plus Manufacturing

- △ Non-Animal Proteins △ Recombinant Proteins
- △ Proteins & Sera for [Embryonic] tissue culture
- △ human glycosylated fusion proteins
- △ Proteins & Sera for manufacturing diagnostic assays

Cellular Analytics

- △ Histone-Modification, Kinases
- △ RNA Expressionsanalytics

Equipment:

- △ **Multiblock Tissue Array** △ **Evaluation Software**
- △ Capella Imager Array Reader

△ Special request for:

Through our cooperation with AlphaScience GmbH www.alphascience.de

- △ IVD Clinical Chemistry and Infectious Disease Monitoring
- △ POC Rapid Tests △ *Lab Consumables: pipettes and tips*
